The Premium is paid in Cash annually, or may, if desired, be paid semi-annually, or quarterly, by adding interest to the deferred payments. The CASH principle adopted by this Company, secures to the parties for whose protection Insurance may be effected, the WHOLE of the benefits, without subjecting them to the heavy drawback of accumulated premium notes.
Persons may effect insurance upon their lives, or upon the lives of others. Married women can insure the lives of their husbands, for their own benefit and for the protection of their children.
Pamphlets explanatory of the principles of Life Insurance, and illustrative of its advantages, may be had, with form of application and rates of premium, at the office of the Company, No. 35 Wall street, or from any of its Agents.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:
"PLANING MACHINES.
"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned about the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.
I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and five per cent for my trouble.
JAMES G. WILSON,
May 19, 1849. Philadelphia."
I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will plane, or plane, tongue and groove with less power, as much lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border St., East Boston, Mass., or at such other place as may be convenient for such a trial.
JOSEPH P. WOODBURY,
August 20, 1851.-dly East Boston, Mass.

JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co.'s
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

WOULD call the attention of the Public, (and his old Friends and Customers in particular,) to his large and extensive stock of
Wines, Liquors & Cigars,
Purchased by himself in the City of New York, within the last month, FOR CASH, at prices from 25 to 33 per cent. less than formerly paid through partners, and I can assure my customers that the Liquors that I now offer, have not passed through second hands on the contrary, I saw all my goods sealed for shipping, and turned out of the CUSTOM HOUSE; therefore, I can say with confidence, that my Liquors are PURE.
I have marked my Goods very low, and have, therefore, adopted the

My arrangements are now completed for the importation of my Fall Stock, when I shall be able to fill orders in New York on still more favorable terms than formerly.
Having been three years in business in this city, I flatter myself that my selections will meet the wants of this market. My assortment of CHOICE SEGARS are complete and my stock of LIQUORS comprises over 1000 original Casks of the most approved brands of

OFFICIAL PAPER OF THE CITY.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

MADISON, Jan. 15, 1852.

I sent you by telegraph this morning the result of the first five ballots for Speaker, and you will have seen that the Whigs stood by their nomination throughout. The Free Soilers voted for each other until the last ballot, when Mr. Sholes voted for Patch. Col. Botkin, Speaker *pro tem*, who has numerous friends who would like to place him in the chair permanently, voted, of course, with all Whigs, for Mr. Shafter.

Messrs. Shafter and Patch paid each other the compliment of their vote. On the first and second ballots, Clemmons, of Grant, (Ind. Dem.) voted for Col. Botkin, and on the other ballots, for Mr. Shafter. Mr. Murphy (Ind. Dem.) of Lafayette, voted for Mr. Patch on the 1st, 2d and 4th ballots on the 3d for Shafter, and paired off on the 5th ballot, with Ramsey, Whig, of Rock, or, at all events, both were absent.

The above is the detail of the facts, but I have said nothing of the anxiety felt and expressed for the result, which is very great. The Whigs feel, generally, that they are taking the right course, under all the circumstances. It is reported that some of them, however, seeing that more votes must come from somewhere, are disposed to yield the Clerkship to the Democrats; and on the other hand, there are many who will stand to their own candidates throughout. There are others who would, very willingly, give the Free Soilers the Clerkship, if they will come in and vote for the Whig Speaker and Sergeant; and opposed to these are sundry other Whigs, principally from the centre and west, who will not consent to any such arrangement. After the fifth ballot, a motion to adjourn to 2 P. M. was carried, principally by democratic votes, the large majority of the Whigs being willing to pursue the balloting. The Democrats went into caucus immediately, but so far as I could learn, took no action, except to come to an understanding to stand by their candidates in some further ballots.

In the afternoon, the Assembly continued its ballotings, the result being, as I sent by telegraph. On the 6th ballot, those who voted for Shafter, 31 in number, were all Whigs but Mr. Cate of Portage, Mr. Shafter voting for Patch, and the latter voting for Mr. Lewis. The 28 votes for Patch were all Democrats; the Free Soilers scattering for each other.

On the 7th ballot, the vote was the same, except that Murphy, of Lafayette, voted for Shafter, giving him 32. Twice, the attempt was made to adjourn, but to no purpose, and the 8th ballot gave us the Speaker. Messrs. Averbeck of Dodge, and Hasse and Beck, of Milwaukee, voting for Shafter. The Speaker made a very neat speech on taking the chair. He is prompt and ready, and gives great satisfaction.

On the first ballot for Clerk the vote was a party one, with the following exceptions: Messrs. Skinner, and Phelps, whigs, voted for Gray; Mr. Mead, whig, for Spooner; Mr. Averbeck, dem., for Welch; the Free Soilers voting for Spooner, and one each for Sholes and Chase. The 2d, 3d, 4th, and 5th ballots, were about the same, ending at 26 for Welch, and 33 for Gray. Here Col. Botkin, who had nominated Welch in caucus, withdrew his name from the canvass, thanking those who had supported him. The course was now clear, and Mr. Gray received 48 votes on the next ballot. Our friend Holt received 6 votes, and some Whigs voted for Spooner.

There was but one ballot for Sergeant-at-Arms, and Elisha Starr, of our city, as true a Whig as lives, was chosen, receiving 33 votes, to 27 for Brainard, Dem, and 4 for Allen, Free Soil.

The Whigs feel well over the result on the whole, for although they did not carry all three of their candidates, and lost one who is a Whig, true as steel, yet they stood out handsomely for him, until there was no prospect of electing him.

The House went straight to work on the question of allowing newspapers to themselves, and some very fair speeches were made on the subject. Numbers of amendments, proposing different figures, were offered and rejected. Messrs. Barber and Donaldson were the principal opponents of the measure of allowing any papers at all, and Col. Botkin, and Messrs. Hoyt, Cate and Earnest, spoke in favor, the Col. making a capital speech. It looks now as if a moderate number will be allowed, and some care taken that the members be restricted to the amount authorized.

The Senate did little to-day. The members look as if they would be glad to be doing something, and as if they could get through a good deal of hard work, when once they set about it. The average of good looks has been decidedly increased, I think, by the newly elected Senators. The Lt. Governor presides with much ease; and, on the whole, the Senate is a very comfortable sort of a place. Mr. Williams, and his assistants, Messrs. Blair and Hubbard, both formerly of Milwaukee, are disposed to provide every accommodation for us out-siders. W. H. W.

MADISON, Jan. 16.

There was a rumor afloat this morning that there will appear a sort of supplementary Message from the Governor this afternoon or to-morrow, of considerable interest. The report runs that the Governor has refused to accept Messrs. BLOSSOM & Co., as sureties for the Treasurer; this much, indeed, was known before, and that an attempt has been made through the Courts to compel their reception. It is even stated that Gov. FARWELL has been cited to appear before the Court at chambers at Milwaukee and show cause why the bonds should not be received. The facts in the case, it is expected will shortly be laid before the Legislature. I am informed that *other* bonds have been procured and accepted. W. H. W.

THE BALL OPENED.—The Madison *Democrat* of Thursday last (the "official" organ of the State and party) contains the following significant notice:

The Congressional Committee for this district have decided to call a Convention at an early day, for the regular nomination of a delegate to the National Convention and an Elector for the district.

So we are to have a "new deal," in spite of the protestations of the *Commercial* and other Hunker organs.

The *Democrat*, in the same connection, walks into Mr. DAVID NOGGLE extensively, for his late letter to the *Commercial*. We copy a few "specimen bricks:"

We had hoped that this subject would have been disposed of without the necessity of personal examination; but of all men in the State to avoid such, David Noggle is the first to cast stones from his own glass house. Why does Mr. Noggle publish his letter in another district, but for the reason well known to himself, that not an individual in his own district, of ordinary intelligence, but knows there is no truth in his statements? No man knows better than himself, that he enjoys the position which he clings to with such tenacity, by a black-leg trick commonly called the "grab-game," against the expressed wishes of a large majority of the Convention from which he claims his election. He knows that every delegate from his own county left the Convention regarding him as a false man, a traitor to his friends and professions. He bartered his truth and his honor for the place, and he knows that a re-hearing by the people can only result in deserved defeat and disgrace. Hence his struggles to retain the power which is alone left of the place, his own acts depriving it of all the honor which might otherwise appertain to it.

YOUNG'S HALL.—We understand that the Milwaukee Musical Society, at their meeting Friday evening, authorized their Committee to lease one of the smaller Halls in Young's Block, for the Society's use, provided the large Hall (which is to be used for Concerts, &c.) prove suitable for the purpose. Its capabilities will be tested in a fortnight, or so, when it will be opened with a Grand Concert in aid of the Orphan Asylum. On the 5th of February it will again be used by Engine Company No. 1, for their first Annual Ball, which is to be "number one" in all particulars.

MILWAUKEE, WEST BEND & FOND DU LAC PLANK ROAD.—We understand by a gentleman from Milwaukee that 12 miles of this road, between Milwaukee and West Bend, have been completed, and that the work is still progressing. A dividend of 13 per cent., we are informed, has been declared for the past year. By this it would appear, that stock in this road must soon be sought after eagerly, especially when it is considered that the dividend must increase with the progress of the road.

This road has been surveyed further north than West Bend. The citizens of Fond du Lac, and the farmers on the route should see to it, that the work be not permitted to stop at West Bend.—*Fond du Lac Jour.*

Whether as a pecuniary investment, or as securing improved communications with the Lake Shore, the people of Fond du Lac and the residents all along the route of this Plank Road, would find it greatly to their interest to push it ahead vigorously. It is one of the most important thoroughfares leading into our city and *certain* to be a productive stock. Considering the hard times the road has made good progress during the past year, and with proper efforts on the part of those directly and largely interested in the completion of the enterprize, might be finished to Fond du Lac during the current year.

RAIL ROAD ACCIDENTS IN ENGLAND.—From the official return of English railroad accidents, for the first half of the year 1851, we learn that the total number of persons killed was 105, and 173 injured, out of 37,881,703 passengers conveyed.—Of those who met with accidents from causes beyond their own control, were 11 passengers killed and 142 injured, and 34 servants of companies, or contractors, killed and 40 injured. Those injured in consequence of their own carelessness or misconduct, consisted of eight passengers killed and six wounded, and 21 servants of companies, or of contractors, killed, and 10 wounded. Twenty-eight trespassers and other persons, neither passengers nor servants of the company, were killed, and five injured, by crossing or walking on the railway. Three suicides were committed.

ON THE WRONG TACK.—The *Commercial* of Saturday, in the course of its comments upon the Message, takes occasion to say:

We regret, however, to see the sum of $8,000 added to the estimated expenses of the State Government for the present year over the last.—Our whig friends thought $100,000 was an extravagant expenditure for a Democratic administration.

The *Commercial's* "regret" is addressed to the wrong quarter. This estimated addition of $8,000 to the extravagant expenditures of last year is not the Governor's handiwork. The figures were furnished by the Democratic State Officers; and are based upon existing, or anticipated liabilities. We trust that the Legislature will sift the estimates thoroughly and lop off all excrescences. Our State expenses *ought* to be reduced below $100,000.

U. S. COURT.—In this Court on Saturday, in the case of the U. S. *vs.* ELISHA MORROW, indicted for cutting timber upon public lands, the motion in arrest of judgment was overruled and the defendant sentenced to pay a fine of $5,00, and costs of prosecution, and to be imprisoned one hour.

The U. S. *vs.* WALTER MCINDOE and CHARLES SHITER. Jury found a verdict of $71 for the U. S. District Attorney, LARIN, for the U. S., J. E. ARNOLD and MOSES M. STRONG, for defendants.

A number of judgments were entered.

ANOTHER "BOLTER."—The Democratic *Standard*, the party organ in Rock County, concludes a searching review of Mr. DAVID NOGGLE'S letter to the *Commercial* with the following flat-footed declaration:

On these grounds we repudiate, as spurious, the action of the State Convention, and express the belief that the harmony and welfare of the party require "a new deal."

Our Hunker neighbors must "come down."—There is no help for it, and they may as well surrender gracefully.

THE MESSAGE.—We have no time or room for comments but we cannot let the occasion pass without acknowledging our warmest thanks to the *ever prompt*, and obliging proprietors of the Daily *Sentinel*, for a copy of the Message, put into the mail at a late hour of the night, and received 24 hours in advance of any other paper, enabling us to lay it before our readers *this* instead of Monday morning. The *Sentinel* is *always* ahead with late news.—*Sheboygan Mercury.*

It is a pleasure to do a favor to a contemporary, who is so prompt to acknowledge the civility.—We hope to serve our friend of the *Mercury* many a turn "of the same sort.

QUITE A MISTAKE.—The editor of the *Free Democrat*, writing from Madison to his paper, says:

The correspondent of the *Sentinel* writes that the "Free Soilers are in the market, and neither party disposed to bid high for them."

No sir; "the correspondent of the *Sentinel*" has written nothing of the sort. The expression quoted was contained in a Telegraphic despatch to the *Sentinel* and *not* from our correspondent.—The fact stated, however, we do not understand the *Democrat* to dispute.

☞ The organization of the Assembly seems to give general satisfaction, except to our neighbor of the *Free Democrat*, who "takes on" sadly about it, and rates the Whigs soundly for their action in the premises. It is barely possible that the failure of the editor of the *Free Democrat* to obtain the Chief Clerkship has so far shaken his usually amiable temper that he views the result, just now, with a jaundiced eye. He will feel better about it, by and bye.

PUBLIC MEETING.—Those who have paid their licenses to retail ardent spirits according to law, are requested to meet at the Milwaukee House, on Tuesday evening next, the 20th inst, to consider upon matters touching their interest, and to take such other steps as may be deemed expedient to protect their legal rights. Let all turn out.

MANY CITIZENS.

☞ German papers please copy.

☞ The Madison *Democrat* states that the Board of Supervisors of Dane County have refused to recommend the passage of a law authorizing the county to take stock in the Milwaukee and Mississippi Rail Road.

YOUNG MEN'S ASSOCIATION.—Another meeting of the Debating Society is to be held in the basement of Plymouth Church *this* evening at 7 o'clock.

THE NEW CHARTER.—We shall publish the new Charter in our paper to-morrow. It is to be submitted to the People on Monday *next*, the 26th inst.

COMMON COUNCIL.—An adjourned meeting of the Common Council will be held at their rooms in Martin's Block *this* afternoon at half-past 2 o'clock.

THE RAILROAD MATTER.

We publish, at the request of Mr. KILBOURN, the following extract from an address presented by him to the Stockholders, and also his letter to his Board of Directors:

"In reference to the other proposition, that I wish to break down the contract with the Messrs. Chamberlain, and stop the work at Palmyra, it would seem too absurd, to require a formal answer; and of course does not, after the full exposition which I have given in this paper, of the provisions of the contract and my views in relation to them. But as that exposition relates alone to the merits of the contract as involving the interests of the Company as a corporation, without reference to any peculiar interest of my own except as incidental to those of the Company, it may not be improper to show that all my personal interests are deeply concerned in the rapid progress of the road: and therefore, that to suspect me of a design to arrest the work, would be to suspect me of the design to injure myself, and therefore, to say the least, quite improbable. I should not be surprised to hear that some evil-minded person should report that I intended to benefit myself at the expense of the Company, as I know there are persons in the community who would be willing to create such an impression, if they could find believers; but that I should be charged with a design to injure myself as a property holder in Milwaukee, for the purpose of injuring the Company, and thereby injure myself as a stockholder, is too absurd to be credited. I will therefore very briefly state my position and my personal views, which show that my interests run exactly parallel with those of the Company.

I think it showed a very short sighted policy in the board to limit the contract to the Chamberlin's at Madison, and tie up their hands in the issue of bonds in such a manner as to prevent them from going any further. Madison is not a business point of any consequence to the road, and it ought not to be permitted to stop there a moment. Whenever the work is begun west of Rock River, it should be begun also west of Madison, and on all the line from the Rock to the Wisconsin River. The business of the road west of Rock River as far as Madison, or even beyond, will not be paying business until it reaches the Wisconsin. As soon as it reaches that point, it will be in connection with steamboat navigation to the Mississippi, and will open a larger trade than now exists anywhere in the Western States. By a proper effort, the whole line can be completed by the opening of navigation a year from next spring, and by that means, in the year 1853, the great line of immigration will pass over our road, and by steamboat on the Wisconsin and Mississippi, be transported to all that broad country, embraced in Iowa, Minnesota, and Northern Wisconsin, which through this channel will receive its population. This can be done two years before the Chicago road can reach the Mississippi; and the great line of immigration turned from Chicago to Milwaukee. If we can command this stream of emigration for two years, we can control it as long as it continues to flow, for the reason that our road to navigable water is shorter, and will be cheaper, than the Chicago route. Now what interest have I in this result, in common both with the city of Milwaukee, and with the Rail Road Company? Have I not as much real estate in Milwaukee, as any other man, to be benefitted by increase of business, population and the consequent increase of the value of my fixed interests? Have I not as much stock in the Company, from which to receive dividends, as soon as a large and profitable business can be done by the road? Or do those who make such absurd representations, consider me so blind that I cannot see nor appreciate the vast advantages to flow to Milwaukee, and to the Company, and consequently to myself, by such a consummation?"

MILWAUKEE, Jan. 14, 1852.

To the President and Directors of the Milwaukee and Miss. R. R. Co:

GENTS:—

It requires but little sagacity to see that a quarrel of a personal nature (such as has been given to the differences existing between the Directors of the old Board, relative to the officers of the Company) will soon end in the prostration of the Company and the Road. There is no doubt, in my opinion, as to the legality of your election yesterday, by the Stockholders, nor of your right to control the affairs of the Company during the ensuing year. But another set of men having been voted for at a separate poll, and declared by themselves to be elected, will, if persisted in, without compromise or concession, on either side, lead to a most disastrous result. I therefore am of the opinion, that this Board received a larger number of the votes of the original Stockholders than our opponents, and as the whole expression of the Stockholders at the Annual Meeting was decidedly in our favor, we can afford to make the first advances towards a reconciliation, and extend the olive branch to those gentlemen who consider us in a hostile attitude towards them. I therefore propose that the Board, at its session to-day, appoint a committee of conference to wait on those gentlemen, or any number of them, and request them to appoint a similar committee, for the purpose of agreeing on terms of compromise, with a view of consolidating a Board of Directors out of the two setts elected yesterday. And in order to open the way to an amicable adjustment I will resign, unconditionally, and withdraw entirely from the Board, provided Mr. Tweedy will do the same. I presume that his and my withdrawal would do much to remove and allay all that party and personal feeling which has been got up during this controversy. I have borne no part in engendering this feeling, but am willing to do all in my power to allay it; not from any personal considerations to myself, but for the good of the cause.

What sort of a spectacle should we present, if from some personal consideration we suffer a controversy to exist, and continue, to an extent, to overset the only improvement which we have in our State with any prospect of success for the benefit of our country and city? The whole sentiments of the community at home, and that of the whole country, especially where our reputation is most deeply concerned, will be against such a proceeding, and the responsibility resting on those who may persist in it, will be most fearful. I have neither ambition nor resentment to gratify, and for the sake of peace and the progress of the Road, I am willing to step aside, provided I can thereby accomplish that result. Let those, therefore, who have been most actively engaged in this controversy, voluntarily withdraw from the Board on either side, and let those new men who have been brought forward by the stockholders, and who are not committed in any of these personal matters, take the offices of the Company into their hands, and I have no doubt but they will re-establish confidence in the public mind and go successfully on with the Road.

Under the present double organization, this is impossible, and to attempt it will result most seriously. Neither Board can raise funds for the uses of the Road, or payment by transactions with either party or either Board, and in a few days, if we are so unwise as to make an open quarrel, we will lose the confidence of everybody with whom it is necessary to have business operations, to an extent which will be fatal to the Company. No personal considerations ought to induce any of us to go to such an extent.—For one, I am unwilling to bear such a responsibility. And if the declarations heretofore made by Mr. Tweedy be serious, that he was anxious to retire from the Board, he will, I presume, accept the offer of compromise here tendered by me, and which I presume, if accepted, will lead to a settlement of the whole controversy.

Very respectfully, yours,
BYRON KILBOURN.

VISIT OF MR. LAWRENCE TO IRELAND.—Mr. Weed speaks in glowing terms of Mr. Lawrence, American Minister to the Court of St. James. He says that his last visit was received by the Irish people with strong manifestations of cordiality. He says.

He went, a few weeks ago, with Mrs. Lawrence, for relaxation to Ireland; but his visit proved one of deep interest and severe toil. No American Minister had ever visited Ireland. Where so much American feeling exists, it was an event of more than ordinary importance. The Minister was received everywhere, and by all classes, with marked enthusiasm. He visited Dublin, Galway, Limerick, Cork, &c., &c., receiving public demonstrations from the authorities of those cities, and attentions from the nobility and gentry. This gave him favorable opportunities for ascertaining the condition, resources and wants of the Island. Since he returned he has, I am informed, addressed a despatch on the subject to our government.

☞ A portrait of the Yankee was given by Dr. Bethune in his speech at the New England dinner. He said, "go where you would, you were sure to find a Yankee on his pilgrimage.—In Boston, however, Quakers, Jews and Scotchmen, all prety keen managers, could not live, for they were not keen enough for the Yankees.—Now, what could a people be made of who could live everywhere, but among whom nobody else could live?"

LOVE OF LIBERTY HEREDITARY.—In the "Life of Kossuth," recently published in the *Phrenological Journal*, we find the following—which shows that KOSSUTH came honestly by his love of liberty:

"It may show what blood runs in the veins of this modern hero, to state that the chronicle of his ancestors shows that seventeen of them, at different times, have been executed for political offences against despotic rule."

ERIE CANAL CONTRACTS.—*The Albany Evening Journal* says:

In every case, we are informed, the Contracts are below the Engineers' Estimates.

The Enlargement of the Erie Canal is now secured beyond a contingency. In three years that great work—a perpetual mine of wealth to the State—will be completed,

Which with balance in Treasury, July 1st, 1850, gave aggregate available resources,	58,812,976 36

Of which amount $49,017,567 92 came from customs.

The total receipts for the quarter ending September 40th, 1851, were $15,571,512 83, of which $14,754 909 34 were from Customs.

The estimate for ordinary wants of next fiscal year are $33,344,219 97. Those for new territories and treaty obligations are $9,548,080 12.

The balance remaining after deducting expenses from means, it is estimated will be sufficiently ample to meet the loan falling due on the first of July, 1853, and additional appropriations beyond the estimates for the present and next session.

Mr. Corwin, in his report, shows the public debt to be $62,560,395 26, being a reduction of more than a million and a half within the calendar year, exclusive of the Mexican indemnity.—He recommends the purchase of sound State stocks for the redemption of the public debt, instead of paying enormous premiums on Government securities.

The excess of exports for the present fiscal year, over the last, is more than $13,500,000.

The tables show that the cotton exports of 1850 yielded, with a short crop, more than the previous year by $10,250,000. Breadstuffs have declined more than one-third in the aggregate since '48, and have fallen off from $59,000,000 in 1847 to $22,000,000. During five months of the present fiscal year twenty-seven and a half millions of specie have been exported.

Mr. Corwin urges a modification of the tariff under the existing circumstances of excessive importations of merchandize and exports of specie, as a means of safety. He exhibits the decline of the iron manufactures from 1842 to the present time, by irresistible figures.

He recommends the adoption of the English policy regarding silver coinage, making it a legal tender for sums below ten dollars. He also recommends the establishment of branch Mints at New York and San Francisco, and the discontinuance of those in Carolina and Georgia.

KOSSUTH AND INTERVENTION.

The Senator from Arkansas, Mr. Borland, who voted to receive the petition of the New York Industrial Congress, thereby seeming to sanction what was asked for—intervention in European affairs, says, in a card—

"Not that I favor the views or wishes of the memorialists, but because I regard this movement of theirs as one of a series which is now in rapid progress of development, the effect of which, if favored by Congress, is to involve us in political affairs of other Countries, in a way and to an extent not intended or recognized by the constitution, and which, in my opinion, can end only in changing the character of our government, and in bringing ruin upon our country.

I am one of those who believe that our government was formed, and we, the representatives of those who formed it, were sent here, for the sole and exclusive purpose of legislating for the promotion of American interests. I find no authority in the constitution, under which I hold my seat here, and which alone prescribes and limits my duties and powers, to do anything else; and to the teachings and admonitions of the "Father of his Country," and of those wise men who co-operated with him in forming and administering the government, I find the highest and strongest considerations, if additional ones were needed, for keeping within these well defined and sacred limits."

P. S.—I am authorized to say that other Senators who voted as I did were influenced by similar considerations with those which governed my vote. S. B.

This is the tone of about the whole Democratic party, South. Mr. Meade of Va., was willing to give personal civilities, nothing more. Mr. Savage of Tennessee, says:

"I am an American. I want no new light to shine upon my pathway in politics. The star of Washington has lost, in my vision, none of its charms or brilliancy. I am content with the past history of my government: to me it is a lesson of wisdom. I want no new apostle, new bible, or new faith. I would not alter a syllable of the past if I could: I only hope the future may be like it.

Mr. Johnson, of Arkansas, wanted to come to the point, and had always intended to vote against the resolution when it came to a direct vote. If Kossuth should come into the Hall by invitation of a committee, it might be that the committee would so introduce him as to have him speak here. This he (Mr. J.) did not want to have done.

The "Union" (Democratic National Organ) in publishing a letter from Mr. Gwinn, of California, inviting Kossuth to the Congressional Dinner, with the reply of Kossuth, that he will not eat it, on Wednesday, says:—

"Nothing in the proceedings of that body, Congress, however decided they are as an indication the sympathy for the Hungarian cause, is to be understood as adopting a policy which would entangle us with the wars of Europe."—*N. Y. Express*, Jan. 3.

GEN. SCOTT.—The Washington correspondent of the State Sentinel has come to the conclusion that Gen. Scott will be the Whig candidate for the Presidency, and is evidently alarmed at the fact. He says:

"Let us then prepare ourselves to fight Scott, and let us put the strongest man in the field against him. No milk and water statesman—no man whose opinions can be quoted on both sides of great and leading questions—no changeling—no old federalist—in a word, no man that carries a weight or whose previous course has already roused a certain degree of opposition. We want a man with whom we can enlist the popular sympathies of the masses without the whip and spur of mere party drill."

It will not be the first time preparations to "fight Scott" have been made. The British prepared to "fight" him in the war of 1812, and the Mexicans prepared to fight him at Vera Cruz, Cerro Gordo, Churubusco, and at Mexico. In all these "fights" he was victorious—and he is certain to come off in the same way in the fight with locofocoism next November.

This correspondent is anxious to get a locofoco candidate who "shall enlist the popular sympathy of the masses, without the whip and spur of party drill." You can't find such a candidate and the "whip and spur of party drill" will not enable you to keep the masses from voting for General Scott. All the preparations that can be made will be so much time lost.—*Indiana State Journal.*

EMIGRATION TO CALIFORNIA.—The Detroit *Advertiser* of Wednesday last says that more persons are going to California from Michigan this year, than in any previous season. About 200 are going from Washtenaw County alone; 20 from the little village of Frankton, and 16 passed through Detroit on Tuesday, from Flint, on their way to the gold diggings.

LOOKING UP.—Business of every name and nature is brightening up, new comers are finding their way here, and for twelve months past three has not as much realestate changed hands, as within the past four weeks. The Future holds out bright promises to the village & County of Sheboygan, and inducements to new comers are many. *Sheboygan Mercury.*

MR. WEED'S LETTERS.

Editorial Correspondence of the Albany Evening Journal

Folkstone, Dec. 13

I intended to gossip through another sheet about London, but some interruptions broke me off, though I am not sure that you will escape an infliction, for I am here so cozily "in mine Inn," with nothing to do, that I find myself pen in hand almost unconsciously.

John Bull is becoming better acquainted with Jonathan, and begins to appreciate his qualities. Our Packet Ships and Steamers have done much for us as a Nation. Mr. Stevens' Yacht America achieved still more. Indeed John has not recovered from his amazement at that result. But he took his defeat like a gentleman, as he is—Then we have sent over two fast nags, "Pigeon" and "Fanny Jenks:" the latter, I believe was raised by our old Whig friend Jenks, of West-Troy. There are, among the "oldest inhabitants," other recollections of which I need not speak. Altogether we are getting a respectable position in England. Let me give a practical illustration. There is one Barber in a dozen st, surrounding St. James Palace. He has about as many wigs to dress as Caxon, who did these honors for "Mr. Wardour" and "Mr. Oldbuck." But I was, for a week, the only individual who required his services as Knight (and this was his name) of the Razor and Strop. He said he had heard that gentlemen did not shave themselves in America. I informed him that his profession thrives with us. When he asked if we had English hair-dressers, I replied that most of our barbers were French and Italian, though some Englishmen were doing well. And he said "I suppose after a while the Natives learn to shave very well."

You will see in the *London Times* of the 12th inst., a very marked article anticipating events which may place England and America in a league to defend Constitutional freedom against the encroachments of despotism from combined Europe. In that article a mighty part is cast for us in the world's drama. There is doubtless a pregnant future for America; but her career will, I trust, be a peaceful one. Our truest happiness and greatest glory can be achieved by a pacific policy.

The Crystal Palace stands in all its exterior magnificence. England alone could have conceived and fashioned such a structure. And now, the purpose of its construction having been accomplished, what is to be done with it? It is a pity to demolish such a beautiful edifice.

I was surprised to learn that lots in the vicinity of the Bank of England and the Royal Exchange were less valuable than in Wall-st. Rents, except in the most fashionable quarters, are about the same as in New York.

The State Department, in pursuance of a resolution of Congress, has addressed circular letters to American Ministers and Consuls, inquiring the expense of living. Mr. Lawrence answers, not by saying what it costs *him* to live in London, because he fortunately is able to support any style that he chooses, but by showing what it costs an American Minister to live respectably, ending with a conclusion that the present salary is not quite half adequate. Mr. L. pays $6000 a year for house rent, and over $1000 for carriages, horses, coachmen, &c. This leaves $3000 for other expenses.

All who come to London find it a very expensive city. Money finds its way out of your pockets with wonderful facility. A guinea changed is a guinea spent. But we found one remarkable exception. We took rooms, at the suggestion of our fellow passenger, Mr. James Lawrence, at Christie's Hotel, in St. James-st. This, you know, is in a most desirable West End quarter, quite convenient to Oxford and Regent-st., with Piccadilly on the one hand and Pall Mall on the other; St. James Palace being within 40 rods, and Buckingham within a quarter of a mile. At this Hotel, where we lived a week, with excellent attendance and capital fair, our expenses, including servants, was less than they would have been at any first class Hotel in Philadelphia, New York or Boston. But this, I say, is an exception, for on comparing bills to-day with two young gentlemen from the South who came over with us in the Baltic, and who stayed at "Longs Hotel" the same number of days, we found that it cost them (two) $16 more than we (four) paid at Christie's.

Yesterday one of the fogs we read of enshrouded London. All day, lights were as indispensable as at night. You could not see from the sidewalk half-way across the street. The Thames steamers did not run, and those destined to move to distant points could not depart. The London papers say that there had not been so dense a fog for 7 or 8 years.

We left London at half past four o'clock for Paris, via, Folkstone, Boulogne, Amiens, &c. But the fog prevented our seeing anything of the country through which we past. Folkstone is 84 miles from London, a distance which we ran in 2 hours and a half, finding at the terminus a very excellent Hotel, the Pavillion.

The Folkstone, of the days before Railways were invented, was an old town inhabited by fishermen, and had been finished at least a century ago. But Railways have given it a new impulse and are building up a new town as a rival to Dover, a place that had been for a long time quite finished also. The Railway and Steamer fare from London to Paris (262 miles) is £2 10, or $12,50.

As we are neither bearing despatches from the Government, nor acting as agents for Livingston & Wells, we concluded not to run express to Paris. We, therefore, left those who choose to go on in the night to their enjoyment, while we sat down to a capital dinner, after which I repaired to the "Coffee-room" to study John Bull, solus, by his glass of ale, his pot of stout, or his hot water, sugar and whiskey, digesting his dinner and the Times newspaper. By-and-by comes a fat, fussy gentleman, who gets up a dish of French politics, and then all pitch into Louis Napoleon, right and left.

To-morrow we cross the channel to Boulogne, where we intend to remain until Monday.

W.

Nashville, January 9.

Weather this morning cool and unpleasant.—Yesterday it snowed, and rained during the evening.

The Democratic State Convention met yesterday in the State House. Hon. Cave Johnson was chosen President; Jacob Miller, A. O. P. Nicholson, Lewis Sheppard, C. N. Anderson, and G. W. Smith, were elected Vice Presidents; W. T. Holmes, J. W. Finn, C. C. Church and N. O. Blake, Secretaries. No nominations were made, or preference expressed for any candidates for the Presidency. An interesting debate took place on the question, of naming a candidate for the Vice Presidency.

It was decided to instruct the Delegates to the Baltimore Convention, to secure the nomination to some Tennesseean—either Trousdale or *Pillow*—for the Vice Presidency. Three Delegates to the Baltimore Convention from each Congressional District were appointed. Messrs. Guild and Nicholson as Electoral candidates for the State at large.

Washington Jan. 8, P. M.

It is now authoritatively understood that Kossuth leaves Washington on Monday next, for Annapolis; thence he will go to Harrisburgh on Tuesday; from thence on the Thursday following to Pittsburgh, where he will spend the remainder of the week. He will probably not arrive at Cincinnati till the Wednesday following, and his movements from that point depend much on circumstances. He is, however, exceedingly anxious to visit Indiana and Illinois, and if possible, to go to New Orleans.

Some ten or twelve of the Western members of the Virginia Legislature called on Kossuth this morning, and expressed their congratulation and sympathies.

A delegation from Virginia also called on him, and through their Chairman, Mr. Hibbard, presented a series of resolutions, accompanied with an address, inviting him to visit that State.—Kossuth replied briefly, thanking them for their kindness and sympathy, and intimated that he would accept the invitation, should he remain in the country long enough—he was very much under engagements to go West, as he very much indeed desired to do, and would advise them of his purpose hereafter in writing.

MR. DARBY'S HEALTH.—Extract from a letter dated

"Washington, December 27, 1851.

"Mr. DARBY is very singularly affected. His senses are as acute as ever; he can hear, feel, taste and smell as well as he ever could, and his mind is not affected in the slightest degree. He can speak as usual, and can move his head, but he has no control of any other part of his body.—He cannot move an arm or leg, or finger or toe, but his health is good, and his appetite fair; his digestion is good, and his appearance in the face that of a man in full health. He is very slowly improving, though I think it will be some time before he can be restored to full health. He takes but little medicine, and I rely more upon his good constitution to bring him out, than any other source.—*St. Louis Republican.*

WISCONSIN DELEGATES TO THE NATIONAL CONVENTION.—The democracy of Wisconsin are becoming dissatisfied with the delegates to the National Convention, appointed by the last gubernatorial convention, and are moving for a new election, to be effected by each congressional district electing its delegate, and instructing him as the democracy of the district may see fit. Some of the most influential papers in the State favor the move, and we have no doubt it will be adopted. It is generally thought that the delegates will be instructed, first for Dodge, and second for Douglas.—*Ottawa Free Trader*

☞ IN CONSUMPTIVE SYMPTOMS, Procrastination is the thief of time," in an awful sense, as it shortens existence, and hurries the patient from time to eternity.

Thousands are dying whose lives might be saved by the timely use of WISTAR'S BALSAM OF WILD CHERRY. A few weeks, a few days, may make a fatal difference in the progress of CONSUMPTIVE SYMPTOMS.

The chances of success increase greatly with the earliness of treatment. Although in cases, seemingly desperate, Wistar's Balsam has performed cures that are seemingly miraculous, still it is advisable to take the Balsam on the appearance of the first symptoms.

CONSUMPTION, of all diseases, is the one that should receive early treatment. Every hour of delay may make the case more difficult. In the war between Disease and Nature, the sooner we assist Nature, the more certainly will she win the victory. If we wait until Disease has broken the constitution, our aid may come too late for service.

REMARKABLE.

AT Mrs. ——— Soiree on Tuesday evening, there was a young gentleman whose brilliant appearance attracted general attention. His large, dark, expressive eyes were only equalled in beauty by the thick, glorious luxuriance of his hair, which was dark and glossy as the wing of a raven. The eloquence of his aspect in this respect was the more astonishing to parties present, since it was well known that previous to his trip to ———, some months before, and from which he had just returned, he was nearly, if not quite bald, in consequence of a long and severe illness, which resulted in nearly plunging him into his grave. Curiosity became at length so strong and universal, that the gentleman was prevailed upon by the fair hostess to explain the mystery, which he did after a few introductory remarks, in the following words:

"Before Leaving ———," said he, "I provided myself with a few bottles of Johnson's HAIR RESTORATIVE, in hope that the virtues attributed to it might touch my case, and, thus preserve me from perpetual baldness. Nor was I disappointed. Ere I had used it a week, my decaying hair ceased falling out; within two months a new crop began to show itself; and in six weeks I could boast of as fine a head of hair as any gentleman of my acquaintance."

"But where can this wonderful article be obtained?" cried his auditors, in a breath.

"Of JOHNSON, the proprietor, 151 East Water Street, and of all respectable druggists. The price is very low—only fifty cents a bottle. Give it a trial, and you will find with me, that while the Hair Restorative is extant, no one need be bald." Jan9

ARRANGEMENTS FOR 1851.

AS the season for emigration approaches, we beg to acquaint our friends and the public with our Arrangements for the year 1851, and would inform them, that with an increase of business—for which we are grateful—we are placed in possession of greater facilities for conducting the Emigration and Foreign Exchange Business than any other House in the World, and for which—in a great measure—we have to thank a discerning public for their continued patronage.

Since the commencement of last year a large number of magnificent ships have been added to the various popular lines for which we are the Agents, and several others are now in course of construction, all of which will be fitted up for passengers in the most superior manner, and commanded by men of long experience.

By the following List of Packets, and their dates of sailing—being six regular packets a month to and from Liverpool—three to and from London—and two, to and from Glasgow—persons sending for their friends, or those proceeding to the "Old Country," will perceive it much to their advantage to make arrangements at our office; and as heretofore, our business in *Liverpool* will be under the personal superintendence of our Mr. W. TAPSCOTT—whose well known care and attention to passengers embarking by our line has won for him his present high reputation among the emigrating public.
